The Montclair-Bloomfield Hospital.

To The Editor of The Citizen.

This worthy and necessary object is attracting the attention of the residents of Montclair, Bloomfield and the neighboring towns, and they are uniting in a common object, a hospital, to which all persons are invited to contribute and in the management of which a strong desire is expressed and an earnest effort is being put forth that the Allopaths and Homeopaths will be represented in equal numbers on the board of physicians.

Such a thing is perfectly practicable and is well illustrated in the Newton Cottage Hospital, Newton, Mass. which was incorporated June 5, 1886, and where all religious sects are represented on the Board of Trustees. The members of the Medical Board were selected from the educated physicians of both schools, by the Executive Committee, taking such as would be likely to work together harmoniously. They meet cordially and fraternally to discuss all matters that affect the interests of the hospital or the patients.

This is an instance of the union of the two schools of practice, and a similar plan has been undertaken at Malden, Taunton and Quincy, Mass., and might be adopted in every place large enough to sustain a hospital, and having Christian gentlemen of both schools of medicine to unite for the common good.

In our towns it would not be practicable for either Schools of Medicine to maintain a hospital alone, but by a happy combination, an incalculable benefit can be done to suffering humanity, and each patient can receive the kind of treatment to which he or she is accustomed. Very few persons in Newton realized, until the hospital was in successful operation, the great necessity there was for such an institution, and if the proper number of self-sacrificing physicians can be obtained to carry on this charitable work there will be found a large majority of the people to assist with influence and property, a hospital where both schools of physicians work in harmony. The Newton Cottage Hospital is doing effective work as is seen from the report for the year 1889, in which the record of treatment is about evenly divided.

Number of patients in Hospital Dec. 31, 1888	11	
Number of patients admitted during the year	141	
		—152
Admitted male, 61; female, 80; medical, 103; surgical, 38.		
Discharged well	101	
Discharged relieved	24	
Discharged not relieved	3	
Died	12	
Remained Dec. 31, 1889	12	
		—152

Of the medical cases admitted 63 have had allopathic treatment; 40 have had homeopathic treatment.

Of the surgical cases 21 have had allopathic treatment; 17 have had homeopathic treatment.

Number of accidents admitted during the year 21; average time of patients stay in hospital, 33 days.

The pupil nurses have done good service in the hospital work, and have been in much demand by the physicians for service in families, when they could be spared from the hospital. For such service they have returned compensation to the hospital amounting this year to $520.06. They bring back reports of their conduct from their employers, which have usually been entirely satisfactory and sometimes have expressed the warmest appreciation.

VINCENT.

The Commissioners of Appeals.

The Commissioners of Appeal finished up their work on Monday afternoon. The board was composed of Mr. James C. Beach, Mr. N. H. Dodd and Mr. William Colfax. More business came before the board this year than for many years previous. One of the most important cases was that of Mr. Phineas J. Ward. The board raised Mr. Ward's assessed valuation over $4000. Rev. Mr. Carlin appealed against the assessment on Christ Church parsonage. Mr. Carlin said that if all the other church parsonages in the town were taxed, Christ Church would pay the tax on theirs but he did not think it was just to tax one and not tax another. The board submitted the matter to the Township Counsel, who returned an opinion that under the law church parsonages were not exempt from taxation.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an Incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in the best of health." Try it. Sample bottles free at Geo. M. Wood's Drugstore.

Adam Metz's Funeral.

The largest funeral pageant doubtless ever witnessed in this town was that which accompanied the remains of the late Adam Metz to the cemetery last Sunday. It is estimated that 500 men were in the line of procession made up by the different societies of which deceased was a member. In addition to this there was a long line of coaches and private conveyances. A band of music marched in front of the mourners. The organizations represented were, The Pioneer Association of Newark, Independent Shooting Co., Franz Sigel Co. No. 12, W. G. S. B., Fortschritt Council, Order of Chosen Friends, Bloomfield Lodge Knights of Honor, Freund Shaft Bund, Eureka Lodge Knights of Pythias and visiting members of several other organizations.

The remains lay in state in the large Hall known as Metz's Hall and were viewed by several hundred people. Deceased was clad in the uniform of the Independent Shooting Corps. The casket was of oak with heavy silver mountings. Each society presented a beautiful floral tribute in addition to those of the friends and family. The sidewalk was lined with spectators from the residence of the deceased to the cemetery. It is estimated that several thousand people were on the streets. Every car arriving from Newark was crowded and a large number of people came from Orange and Montclair.

Undertaker A. B. Mc. Dougall had charge of the funeral and everything passed off very orderly. The services at the grave were in accordance with the ritual of the Knights of Pythias. The religious services in the hall were conducted by Rev. Mr. Kaddernhahl of St. Stephens Evangelical Church of Newark. The eight pall bearers were selected from among the several societies present.

Building and Loan Association.

The annual meeting of the Essex County Building and Loan Association will be held Tuesday, October 21, 1890, at 8 o'clock P. M., in Dodd's Hall, Glenwood avenue, for the purpose of receiving the report of the Treasurer and Auditing Committee, the election of four Directors for three years, and one Director for two years, (to fill the unexpired term of Frederick H. Pilch, deceased,) and of three shareholders (not Directors) as members of the Auditing Committee for one year; the adoption of two amendments to the constitution. 1st. Increasing the powers of the Vice-President. 2d. Giving the Board of Directors authority to send delegates to the New Jersey State League (if one is formed) of Building & Loan Associations; the payment of dues, interest and fines, and the transaction of other business.

A Prosperous Association.

The Board of Directors of the Orange Valley Building and Loan Association has figured up the profits of the six months approximately and finds that it has earned about $1,500. This is a remarkable record and one that it will be hard to equal.

Election Blanks Arrive.

The blanks for the use of the different boards of registry and election in Essex County were received by County Clerk Smith from the Secretary of State's office at Trenton yesterday. The blanks for each election district include one each for the oaths of the registry and election board and poll clerks, two canvassing books, one register of votes for board of election, one to be filed with the County Clerk and one with the municipal clerk, two for the use of agents or challengers, four for lists to be posted at the second and third meetings, two poll books, four blank election returns for Congress and four for legislative votes cast. For the county board of canvassers there are six blank election returns, three each for Congress and legislative. Each election district will receive altogether 2,140 blanks. The blanks for the election returns in each district number 790.

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:

TOLEDO, O., Jan. 10, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours Truly,
L. L. Gorsuch, M. D.
Office, 215 Summit St.

We will give $100 for any case of Catarrh that cannot be cured with Hall's Catarrh Cure. Taken internally.

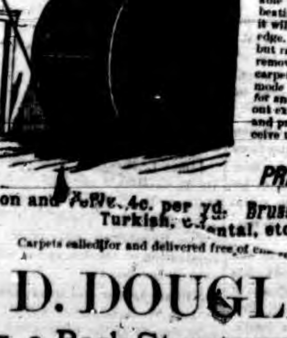
EMPIRE
STEAM CARPET CLEANING.



The subscriber begs leave to inform his friends and the public that he has erected a Carpet Renovator of the most recent and approved kind, and is prepared to clean carpets in a most satisfactory manner and at reasonable prices. This improved mode of carpet beating is a great saving on the wear and tear; it will not rip a seam, or even fray out a raw edge. It does not stretch or shrink the goods, but raises the nap and brightens the color by removing all dirt and dust; also moths and carpet worms—in fact it is the one true mode of carpet cleaning. Carpets will be called for and delivered by responsible drivers without extra charge. By giving this my personal and prompt attention I hope to merit and receive the patronage of the public.

HERE AND THERE.

Much interest and activity is being shown by the ladies in the hospital movement. The first meeting of the Mountain Side Hospital Association was held last evening in the Methodist Church, Montclair. Among those who addressed the meeting, were Rev. Mr. Ballantine, Rev. Mr. Owen, and Rev. Dr. Bradford. The name Mountain-Side that has been chosen for the hospital is an excellent one. We shall note the progress and success we hope of this hospital work.

Many people suffer at this time of the year from depression of spirit. They wonder what the cause of it is, for despite the beautiful days and the bracing air a feeling of melancholy steals over them. This depression is due in very many cases to the changing of the seasons and the consequent process of adjustment through which the system passes. May this adjustment be quickly made.

Did you ever stop and watch a blockade of wagons in one of the busy quarters of New York? Do so, and you will without doubt be amused. There are times when it is a satisfaction just to let ones' self out, and to listen to one's own voice. A blockade to a man who is in a hurry is most aggravating, and we do not wonder that drivers who are thus delayed are apt to give free expression to their feelings in language more striking than elegant. There are people who do not wait until blockaded before giving full expression to what they think or do not think. Such people always want their "say." They are unhappy until they get it. Mrs. Poyser in Adam Bede speaks for this class when she says: "I've had my say out, and I shall be th' easier for't all my life. There's no pleasure i' living, if you're to be corked up for ever, and only dribble your mind out by the sly, like a leaky barrel."

We are a nation of readers. For proof of this, notice the people on the trains; almost every man is reading. Going to business there are the morning papers to read, and on returning, the evening papers. A great deal of information is no doubt picked up in this way by those who otherwise would not have the time or the inclination to read. Many of the ladies who are employed in the city and travel in and out every day carry books with them and thus put the time to profitable use. We think, however, that the strain upon the eyes of the readers from the jolting and jarring of the cars is in many cases very harmful. Those who are obliged to use their eyes much in writing and reading should be very careful of them and might better abstain from reading on the cars. This time could be better spent in thought and the eyes given a needed rest.

This travelling in and out every day is to many a relief. It's a break and change from the monotony that otherwise would be theirs. It gives the chance to exchange social greetings with friends and acquaintances, besides the opportunity to read of which we have spoken. There are then advantages attaching to this travel that it may be well to bear in mind and to improve.

"In what season is it best to study the book of nature?" The reply to this rather poetical question is "That season in which Autumn turns the leaves." Now, when the leaves begin to fall instead of turn or turn merely is the falling it is somewhat disappointing. Nature very often delights the eye with her autumnal robe of many hues. We hope this fall she will not fail to display her brilliant dress.

In many States a person believing a religion other than the Christian is sworn according to the peculiar ceremonies, if any, of his religion. The Jew swears upon a Hebrew Bible with his hat on. The Mohammedan upon the Koran, the Hindoo upon the Vedas. A Chinaman in California is sworn by his taking hold of the body of a rooster, while another person seizes and cuts the rooster's head off, this ceremony being symbolical to him that if he swears falsely he will meet a like fate. In New York, the Chinaman is sworn by the burning of a joss stick in court, the witness thereby declaring that if he speaks falsely his life shall go out as does the burning joss stick.

Rugs of Turkish, Russian, and Persian make are very largely sold in this country. Purchasers at times, however, buy their rugs of American manufacture believing them to be imported. An Irishman was once asked by a friend what he was doing for a living. "Begorra," said Pat, "I've an illigant job on the Bowery makin' *ginewine* Turkish rugs."

Last week we said something of canes and the habit of carrying them. A cane now stands by our table that is made up of a dice box, a fan and a camp stool. With such a cane one can start off on a summer-day with the feeling that if tired there is a seat at hand or in the hand; if heated there is the means of becoming cool; and if in want of amusement there are the dice. Can there not be a cane that will answer for the winter as this one does for the summer; one that will, for instance, contain a pair of skates and a small stove?

Hundreds of people go up and down in the elevators every day in the large buildings in New York. It is really quite remarkable that the accidents are so few. The writer recently went up in an elevator in the Tribune Building and within some three or four feet of the fifth story the elevator suddenly stopped and refused to go either up or down. The door above was shoved open by means of an umbrella and the writer and another gentleman managed to climb out. A few moments later the other elevator fell from the top to the ground floor; unnecessary to say that we came down by the stairs. A gentleman in a Southern hotel once enquired for the elevator and was promptly shown to the bar. We think the latter form of elevator more dangerous than the former.

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial Bottles Free at Geo. M. Wood's, Drugstore.

The Montgomery Street Bridge.

The Morris Canal Company it is said contemplate making alterations at the Lock on Montgomery Street. Town Committeemen, Lewis Cockefair and E. A. Rayner, Engineer Owen, and Town Counsel Richards have been appointed a committee to confer with the Canal Company officials to see what can be done towards having a new bridge built at Montgomery Street. The present structure is in a dilapidated condition and is too narrow, the roadway being only about 15 feet wide. The present method of having the tow line dragged over the road way is also a serious inconvenience to travel. The Lock at present extends about 15 feet into the roadway. The Committee will probably endeavor to induce the Canal Company to extend the Lock further west and also try and have the Orange Water Company's pipe, which now takes up a good portion of the bridge, put under the canal. Montgomery Street is one of the principle highways of the town and the present Canal bridge is a great damage to it. It is hoped that the committee will be successful in having a new and improved bridge built.

Working on the Caldwell Railroad.

At last work has begun on the Caldwell railroad. The project has had more notoriety probably than any similar piece of road in the country. But Caldwell will now have a railroad. It will not be by the most direct route and will not be very convenient for persons desiring to go to Newark, yet it will be the nucleus of better facilities that are bound to follow in time. Caldwell and Verona will get a good deal of advertising through the new enterprise.

The contract was awarded by the company to Mr. Leavitt, one of the syndicate of Philadelphians who have bought hundreds of acres of unimproved property. Work has been carried on in the neighborhood of Thatcher's mill pond in Verona. Connections will be made with the Greenwood Lake railroad at Great Notch. The stockholders will own and operate the road on their own account and lease the connecting privileges.

Be Sure
If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:
To Get
"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.
Hood's
When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." MRS. ELLA A. GOFF, 61 Terrace Street, Boston.

PROCLAMATION CONCERNING DOGS IN THE TOWNSHIP OF BLOOMFIELD.

THE TOWNSHIP COMMITTEE of the Township of Bloomfield, in the County of Essex, and myself Township Clerk of said Township, being of the opinion that the public safety requires the issuing of this PROCLAMATION, I Edward F. Farrand, the said Township Clerk, by the advice of the said township Committee, do authorize the destruction by any Person or Persons of all DOGS, male or female, found running at large within the limits of said Township on and after the SECOND DAY OF JUNE, 1890, until the FIRST DAY OF NOVEMBER next, except such as shall be properly muzzled with a wire muzzle about the nose, securely fastened:

PROVIDED, That nothing in this Proclamation shall apply to a DOG or DOGS of a non-resident passing through the town, accompanied by the owner or owners of such dog or dogs.

Dated at Bloomfield, N. J., this Second day of June, 1890.

MR. LEE. "Why, Addie, you needn't cry about it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."
MRS. LEE. "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen,—and she makes all her own clothes. But she has what I haven't."
MR. LEE. "What is that?"
MRS. LEE. "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation; but I could do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Mamie goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Even the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"
MR. LEE. "Well, perhaps I had better send for a Specimen Copy; for, if it is anything like what you say it is, it will amuse and instruct the whole of us."
MRS. LEE. "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 10 cents, so we can't lose anything, as each number contains a Pattern Order entitling the holder to any Pattern she may choose, and in any size, which alone makes each copy worth 25 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only $2.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."
